

# Does your patient need an ambulance?

Call the healthcare professional line for  
emergency and urgent transport to  
hospital or between hospital sites.

**0345 140  
0144**

**Please note:** You will be asked clinical questions about the patient's condition. In a life-threatening situation or an emergency request, the attending clinician must make the call to ensure accurate information is provided. Where delegation is unavoidable, the caller must be able to answer basic triage questions about the patient's condition.

In immediately life-threatening emergencies,  
you can always reach us on 999.

The healthcare professional line is not for use by members of the public.
